All Movie Nights start at 7p.m.
Bowman Room, Cambridge City Hall.
Discussion follows each movie.

Come and challenge your thoughts about
consumption, what makes a sustainable
society, and the difference the individual
(YOU) can make.

Who is Cambridge City Green?

The goal of City Green is to encourage and coordinate individual and collective action in support of the environment, by promoting lifestyle changes and participation in community-based projects. City Green is a subcommittee of the Council-appointed Cambridge Environmental Advisory Committee (CEAC). City Green volunteers have written articles, conducted plant rescues, initiated planting projects such as Cambridge Stewardship, coordinated annual litter clean ups, and have regularly hosted an annual event. Join us for the City Green Film Forum, but also consider joining Cambridge City Green and help shape future events and projects! www.CambridgeCityGreen.ca or follow us on Facebook.
